Attachments: 2019-02-19 NC DAQ GenX - AWMA.PDF

FYI

I thought you all might want a copy of the slides from Mike's talk yesterday at NC DEQ. I attended his lunch time AWMA talk. I don't think there's anything new here that ORD hasn't heard directly from NC DEQ about PFAS/Gen-X and Chemours.

One of the attendees described toxicology work performed through a collaborative ongoing project between UNC and Duke University. I'll try to get more information and links to those studies.

I do note that in the absence of recommendations for ambient air methods for PFAS, NC DEQ is using rain event sampling to connect air transport to surface and well water contamination.

Subject: A&WMA RTP Chapter Gen X Lunch Seminar Slides

Thank you for attending the Air & Waste Management Association (A&WMA) - RTP Chapter Lunch Seminar yesterday. We hope you enjoyed it! The slides from the event are attached.

I invite you to share your opinions or suggestions on what topics we should cover in the future by replying to this e-mail.

Also, if you are not already a member of A&WMA, consider joining our exclusive network of over 5,000 environmental professionals worldwide. Take advantage of the online educational resources, networking, and professional development opportunities. More information on member benefits are detailed here: <https://www.awma.org/benefits>

Thanks again,
Khalil (A&WMA RTP Vice Chair)
